

# ChemTANK

## Self-Bunded Chemical Tank

Worksafe certified ChemTANK self-bunded storage tanks range from 1,000L to 20,000L working volume. Offering a large reduction in civil costs. Our self-bunded tanks negate costly concrete bunding and are not subject to rainwater ingress. Tanks are fully compliant to all bunding specifications with the benefit of lower costs and faster installations.

- ▶ ChemTank tanks are certified to Worksafe requirements and built in accordance with the Thermoplastic stationary tanks – Safe Work Instrument 2017
- ▶ All tanks are designed with seismic restraints suitable for the different seismic loading zones in New Zealand
- ▶ Tank working capacities up to 20,000L
- ▶ Bunds designed to give 110% of the Chemical Tank Capacity
- ▶ Suitable for long term storage of most Class 5, 6, 8 and 9 Hazardous Substances
- ▶ The inlet, outlet, overflow, vent and access hatch come as standard accessories on the ChemTank range of chemical storage tank
- ▶ 25 year design life
- ▶ Can be supplied complete with level ultrasonics/probes, high and low level switches and bund alarms
- ▶ PVC/FRP Self Bunded Tanks also available.
