

Precise Metering of Smallest Amounts

The hose pump DULCO®flex DFAa is designed as low-pressure pump and suitable for use in laboratories as well as OEM applications. It can be used for precise metering of small quantities up to 84 l/h at 2 bar. The rotor is equipped with 3 rollers to reduce pulsation. The hose can be quickly replaced using the quick-release fastener.

Options

- Stainless steel base panel
- Single-phase motor
- Two pump heads
- Batch operation with foot switch

Hose diameter	3.2 to 8 mm
Flow rates	1.6 to 10 ml/rev
Hose materials	SOLVA, silicone, Norprene A60G, Norprene A60F (food-grade)
Self-priming	up to 8 m
Backpressure	up to 2.0 bar

Pump type	Flow rate/revolution [ml/rev]	P max [bar]	Capacity at max. pressure [l/h]	Rollers/shoes	Ø hose (internal) [mm]
DFAa 003	1.6	2	17	Rollers	3.2
DFAa 008	10	2	84	Rollers	8.0
