DULCONNEX Blue

Efficient and safe operation of pumps by smartphone

The next generation of mobile product assistance from ProMinent – DULCONNEX Blue. The smart app enables intelligent pumps to be conveniently controlled by Bluetooth.

Technical Details

Key features

- **Secure communication** – Simple authentication and pairing with supported units for secure data exchange via Bluetooth interface.
- **Reliable remote control** – Simply operate ProMinent devices in installation environments that are hard to access via remote control.
- **Intuitive design** – Pumps can now be operated even more conveniently, thanks to its modern and multilingual user interface.
- **Always up to date** – The key information from all units can be gathered at a glance on the clearly arranged dashboard. Information on current device status and performance data, as well as firmware updates, are available at any time.
- **Simple pump configuration** – Restore saved device configurations at any time and copy them quickly from one pump to other pumps.
- **End-to-end documentation** – Automatic recording of key operating data in the log book and the built-in commissioning report help to comply with regulatory documentation duties.
- **Direct access to product documentation** – Permanent access to the latest version of product specific documents or relevant files.
