Quickstart

# DULCOnneX & DACb (WiFi)

ProMinent®

1 Connection

Connect the **DULCOMETER® diaLog DACb** to the **DULCOnneX** using the provided **M12 Ethernet Cable**.

Checklist
Please make sure you have the following items:

- [ ] DULCOnneX gateway
- [ ] DULCOnneX access code
- [ ] DULCOMETER® diaLog DACb
- [ ] M12 Ethernet Cable
- [ ] WiFi Connection
- [ ] Smartphone, Tablet or PC

2 Setup DACb

1. Start the **DULCOMETER® diaLog DACb** by connecting the power supply.

2. • Press the **Menu** key on the device
   • Navigate to **Setup** using the arrow keys
   • Navigate to **Bus Configuration**
   • Make sure the **IP address** is set to
     `192.168.001.201`

   If it's not, please use the arrow keys to enter the above IP address.

IP address
192.168.001.201

3 Setup DULCOnneX

1. Start the **DULCOnneX**

Start the **DULCOnneX** by connecting the power supply.

2. Connect to WiFi Network "**DULCOnnect**"

DULCOnnect
FD1960de01

On your Mobile / Tablet / PC, connect to a WiFi Network with

Name / SSID: **DULCOnnect**
Password: **FD1960de01**

3. Connect the **DULCOnneX** to the Internet

https://**192.168.42.101**

Name / SSID	**Your_WiFi**
Password	**XXXXXXX**
Region	☑ Europe (0)　☐ North America (1)　☐ Asia (2)

Open your web browser and type in following address:
`192.168.42.101`

Enter **Name / SSID** & **Password** of the WiFi network you want the DULCOnneX to be connected to.
Note: Spaces are not allowed in WiFi Name / SSID

Also make sure to choose the correct Region:
0 = **Europe**　　**1** = **North America**　　**2** = **Asia**

Press **Save** and wait for the DULCOnneX to reboot.
